

Classic Villa 4

1931MNOP
(w/ beveled glass)

Either an opal (#1) or clear acrylic (#2) (glass available for some sizes) lens may be installed in the hood, giving added illumination or an uplight. It can also be closed, allowing the hood to be finished; with either the same color as the fixture (#3), or a contrasting finish (#4).

CAT. NO.	MOUNTING	DIMENSIONS			LAMPS
		Width	Height	Projection
